

To whom it may concern

19<sup>th</sup> June 2008

I can confirm that Stagecoach UK Bus operate over 7,000 buses and coaches in the United Kingdom, of those vehicles approximately 2,900 are powered by Cummins engines. I can also confirm that since 2005 we have purchased 985 new buses, all with Cummins power units.

Since 2004 Stagecoach have used Envirox across the whole UK fleet. By mid 2008 over 700 million miles (1.1 billion km) have been accumulated and no operational problems due to the use of Envirox have been observed on Cummins engines or those of the other manufacturers.

Yours sincerely
